Roystonea Avenue duplication

Dear stakeholder

The Department of Logistics and Infrastructure (DLI) is duplicating Roystonea Avenue, Palmerston, from Terry Drive to Lambrick Avenue. These works will improve road safety for all road users, future traffic flow and drainage.

The next stage of works requires changed traffic conditions along Roystonea Avenue from **Tuesday 3 November 2026**.

These changes are required to remove temporary traffic management arrangements and reinstate the permanent road alignment.

Roystonea Avenue changed conditions

Traffic travelling towards Palmerston city centre will be switched to the permanent inbound side of Roystonea Avenue, while traffic travelling towards Lambrick Avenue will remain on the outbound side. Traffic management, including single lane closures in each direction, will be in place while works are completed.

Note: Roystonea Avenue will be closed from 8 pm Tuesday 3 November until 6 am Wednesday 4 November to facilitate these changes.

Buscall Avenue and Inverway Circuit access restored

All turning movements at Buscall Avenue and Inverway Circuit intersections will be restored, with traffic management in place to support ongoing works.

Terry Drive changed access

From 2-6 November, temporary right-turn restrictions will be in place at the Terry Drive intersection. There will be no right turn from Roystonea Avenue onto Terry Drive, and no right turn from Terry Drive onto Roystonea Avenue. Alternative access is via Temple Terrace or Buscall Avenue.
