

Alice Springs CBD Revitalisation Project

Project update

Dear Stakeholder,

To minimise disruption to traffic in the Alice Springs CBD, the recently communicated closure of Hartley Street will be rescheduled to allow Gregory Terrace to reopen before the Hartley Street works commence.

The contractor undertaking the works on Hartley Street, through their traffic management control team, have assessed traffic management implications and will advise of a suitable date as soon as possible.

The department and contractor, apologise to all concerned stakeholders and an update will be communicated once a date for the Hartley Street works has been confirmed.
