

Alice Springs CBD Revitalisation Project

Project update

Dear Stakeholder,

As part of the Alice Springs CBD Revitalisation Project, changed traffic conditions including road closures will occur on Gregory Terrace from week commencing 25 September. Changed conditions are expected to remain until the end of December 2023.

Pedestrian access will be maintained to businesses and shopfronts at all times. If required, alternative crossings will be established as close as possible to minimise disruption to pedestrians and businesses.

Road closures to Gregory Terrace are expected to occur in stages (refer to diagram) starting with the southern side. Stakeholders will be updated when dates for stages 4, 5 and 6 are confirmed.

Vehicle access to businesses along Gregory Terrace will be disrupted temporarily and motorists are asked to follow traffic management in place.

Various car parking spaces will be temporarily unavailable on the Gregory Terrace for the duration of these works.

The Department of Infrastructure, Planning and Logistics appreciates your patience while these works are undertaken and will provide regular project updates to stakeholders as the project progresses.
