

Alice Springs CBD Revitalisation Project

Dear Stakeholder,

Construction of the Alice Springs CBD Revitalisation is progressing.

Local contractor Ant Galactic Pty Ltd began construction of the River Activation Space on Monday 9 August 2021.

The River Activation Space is located on the corner of Parsons Street and Leichardt Terrace, and construction will include a large shaded space with good natural surveillance, shading and seating, Wi-Fi during the day, and well lit at night.

Minor impacts to parking will occur on Leichardt Terrace throughout construction, and up to three parking bays will be removed to support construction.

These works will have minimal impact to road users on both Parsons Street and Leichardt Terrace.

The works are scheduled to be complete by the end of the year.

The Alice Springs CBD Revitalisation project is creating a safer and cooler Alice Springs CBD for locals and visitors to enjoy.

The following works will also commence soon, with further updates to follow:

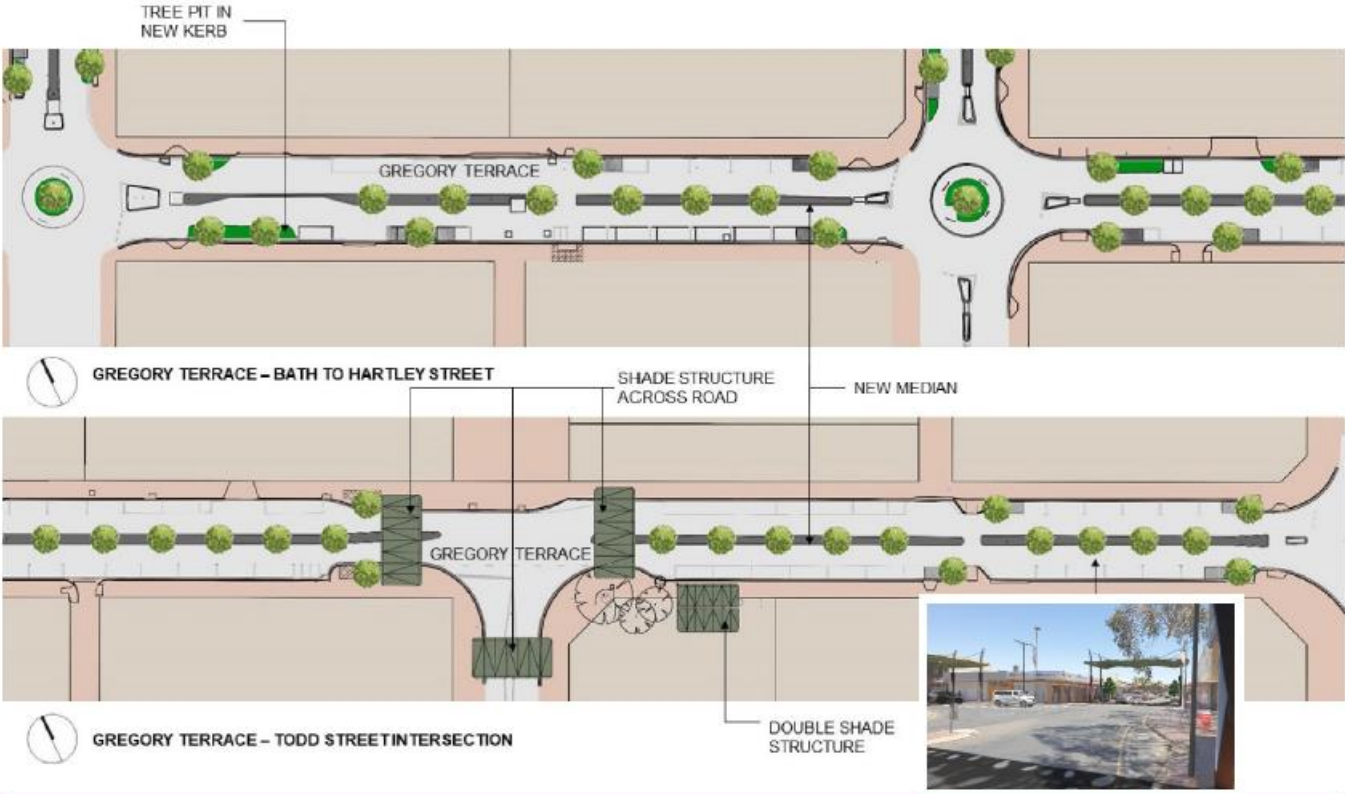

- **Shade structures and landscaping:** Shade structures placed strategically around the Alice Springs CBD to assist in developing cooler pathways for pedestrians to walk. Shaded walkways will provide comfort to pedestrians as they walk through the CBD, including from carparks to shops. Trees will be planted to assist with cooling and shading. Please see the map and drawings overleaf for locations. Works are scheduled to commence early September.
- **Lighting upgrades:** Streetlights upgraded to brighter LED lights within the CBD. Additional lights and CCTV cameras will be installed to light up Billy Goat Hill, Trevor Reid Park, Stott Terrace Bridge, Leichardt Terrace and Todd St (CCTV only). Works are scheduled to commence in September.

The Department of Infrastructure, Planning and Logistics will provide regular project updates to stakeholders.
